

JAIGANESH K

Data Analyst | Python · SQL · Power BI · Tableau · Machine Learning

+91 86101 54460 karthikeyanjaiganesh555@gmail.com LinkedIn GitHub Portfolio

Professional Summary

Data Analyst skilled in Python, SQL, Pandas, Power BI, DAX, and Machine Learning. Built 2+ NLP-driven applications and ETL pipelines, creating interactive dashboards using Streamlit, Power BI and Tableau with expertise in data preprocessing and statistical analysis.

Technical Skills

Languages: Python, SQL, HTML, CSS, JavaScript

Libraries & Frameworks: Pandas, NumPy, Scikit-learn, NLTK, EDA, Data Cleaning, Data Visualization, DAX, Data Modelling, Streamlit

Tools & Platforms: Power BI, Tableau, MySQL, GitHub, Visual Studio Code

Soft Skills: Communication, Problem-Solving, Time Management, Attention to Detail, Team Collaboration

Experience

Sutherland Global Services

03/11/2025 – 23/12/2025

Non-Voice Process Associate (Contract)

Chennai, India

- Handled customer support operations via email and chat, resolving queries and maintaining accurate records while meeting service standards and deadlines in a fast-paced environment
- Developed strong communication, problem-solving, and time management skills by consistently delivering quality customer satisfaction and adhering to organizational guidelines

Gradtwin

05/2025 – 08/2025

Data Science Intern

Chennai, India

- Developed an AI job-matching system using Python, ML, and NLP, automating resume parsing and improving job alignment accuracy by 15%; built an interactive Streamlit dashboard for real-time visualization
- Engineered ETL pipelines and performed feature engineering on structured datasets, delivering data-driven insights and actionable reports for business decision-making

Education

Dhanalakshmi College of Engineering

11/2021 – 05/2025

B.E. Electrical & Electronics Engineering | CGPA: 8.1

Chennai, India

Velammal Vidhyashram CBSE

06/2020 – 05/2021

Higher Secondary Education | Score: 76.4%

Chennai, India

Projects

SOC Threat Intelligence Dashboard

Power BI, DAX, Data Modeling, Data Visualization

- Built a cybersecurity analytics dashboard in Power BI tracking 3,000+ cyberattacks, financial losses, and industry-wise threat exposure using DAX calculations and advanced visualizations for real-time threat monitoring
- Created interactive reports with attack type analysis, vulnerability assessment, and geographic risk distribution, enabling data-driven security decision-making through KPI metrics and year-over-year trend analysis

HR Analytics Dashboard

Tableau, KPI Dashboard, Data Modeling, Workforce Analytics

- Addressed high employee attrition challenge by analyzing 1,470+ HR records in Tableau, identifying key turnover drivers across departments, age groups, and education fields to enable proactive retention strategies
- Delivered actionable insights through interactive visualizations including attrition rate analysis (16.12%), job satisfaction ratings by role, and gender-based retention patterns, supporting data-driven workforce planning and HR decision-making

Certifications

Python 101 (IBM) · AWS Cloud Foundations · Google Cybersecurity · Google Digital Marketing
